FISHBONE

Özge Çağla Aktaş

“Fishbone panel ailesi, çalışma alanlarında ihtiyaca yönelik bölümler oluşturmak için geliştirilmiştir. Sayısız kombinasyona izin veren modüler yapısı, uç uca eklenerek, kullanılacağı alana göre adapte edilebilen esnek çözümler sunar. Açık ofislerde, dikkat dağıtan görsel ve işitsel unsurlardan izole edilmiş, odaklanmaya uygun çalışma alanları yaratır.”

Dikey bağlantı borularına bağlanan panellerle genişletilebilen Fishbone, bağlantı parçalarına göre farklı açılarda çalışma alanları yaratır. Yatay bölmeli yapısıyla melamin, kumaş, akustik keçe veya pleksiglas gibi farklı malzemelerin bir arada kullanımına olanak tanır.

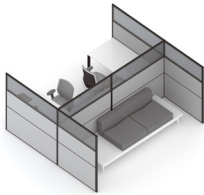

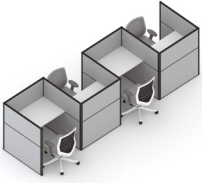

Yükseklik seçenekleriyle kısmen veya tamamen izole edilmiş alanlar oluşturulabilir, değişen panel genişlikleri ve tabla boylarıyla farklı kullanım senaryoları kurgulanabilir. Panel içinden geçen kablolama sistemi ve panel üzerinden erişilebilen elektrik güç kaynağı sayesinde karmaşadan uzak, temiz ve düzenli bir çalışma alanı sağlar.

Panellere monte edilebilen dikdörtgen tabla toplantı ve tekil çalışma alanı yaratırken, trapez masa tablalarıyla petek formu çalışma alanları oluşturulabilir.

Açık çalışma alanlarında bireysel veya ekip çalışması kurgularının yanı sıra çağrı merkezi, kütüphane, lobi gibi ortak kullanımlı kurgulara uygun çözümler sunar.
